

Skills Bootcamp

Project Management Digital Transformation

12 Weeks • Fully Online • Career-Boosting Training

Course overview

Start, change or boost your career with our online tutor-led Project Management Digital Transformation Skills Bootcamp.

With this course you'll gain the skills to lead digital projects with confidence. Learn to manage every stage of the project lifecycle using tools like Monday, Trello and the PRINCE2 methodology. Master essential software for communication, collaboration and stakeholder management including Jira, Microsoft Teams, G-Suite and ServiceNow.

We also cover the core project management fundamentals: budgeting, cost control, quality and risk management – all with a digital focus.
